

## Mission Statement

Rebuilding stronger and safer communities by restoring families to a permanent lifestyle of sobriety, by mobilizing a culturally sensitive, community based support system to promote child safety and well-being while keeping the family unit intact.

Reclaiming our families -  
One at a time

## Family Preservation Court

IT JUST TAKES ONE

## Family-to-Family Approach

Family-to-Family, a community mentoring support system will be developed for the community to adopt a person or family to assist in their long term recovery.

Family support: The goal is that businesses and community at large will help make the connection for people in recovery once the community is aware of the problems they face (housing, employment, education, day care, etc)

.....

### Community Outreach

**MENTORING** for clients as a continuum of care (public and private businesses, clubs, and churches).

*Providing clients with a positive role model, training, jobs, education, etc.*

**EDUCATING** the community about the Family Preservation program.

*Community leaders are involved and learning about the program and dependency issues to make changes state-wide.*

**RESOURCES** to provide sustainability to the program.

*Collaborative efforts with non-profit allows for the receipt of funds, services, and materials from public and private sources.*

### SEEING RESULTS

Reduce the length of time children are in foster care.

Assure safety and well-being of children in the family home.

Mobilize community based support system.

Utilize effective and promising prevention and intervention programs and services to achieve lasting sobriety.

Reduce the length of time to achieve permanency.

Track outcomes for children & family to contribute to best practices and overall well being of children and families.
